Healthpointe Welcomes Dr. Gregory K. Toumayan, Chiropractor, to Colton, Temecula, and Perris

Healthpointe is pleased to announce the addition of Dr. Gregory K. Toumayan to their chiropractic team in clinics throughout southern California.

(PRWEB) August 28, 2015

Dr. Gregory K. Toumayan, D.C., Q.M.E., is now treating patients with back pain and associated symptoms, such as radiating pain resulting in **shoulder** pain, hip pain, neck pain, stiffness, muscle spasms, and numbness.

Dr. Toumayan received his Bachelor of Arts in Civil Engineering from the University of Illinois, and then went on to earn his title of Doctor of Chiropractic from the Palmer College of Chiropractic and spent his residency for chiropractic radiology at the Rock Island Clinic in Illinois. Dr. Toumayan is a certified quality medical examiner and an experienced technique department instructor and clinical supervisor.

Chiropractic care involves the manipulation of the spine to perform a quick, specific stretch of those joints that are not moving properly. This stimulates the Golgi tendon organs and stretch receptors, which tell the brain to let go of the overly tight muscles around the joints. Manipulation of the spine also could gently break up any minor scar tissue.

Dr. Toumayan and his team of experienced chiropractors provide the best possible medical care to patients in the Colton, Perris, and Temecula areas. Dr. Toumayan will assess and discuss the injuries with the patient to determine the treatment options best suited for his or her individual medical needs. For patients struggling with chronic **back pain**, Healthpointe encourages a chiropractic consultation.

At Healthpointe, chiropractors work with other medical specialists, such as orthopedic surgeons, to diagnose and treat the patient's pain. In addition to standard care, Healthpointe chiropractors provide athletic training, rehabilitation and nutritional counseling. They also function as certified team physicians for sports and other activities and as qualified medical evaluators.
