Healthpointe is excited to announce that they are now offering Supartz Joint Fluid Therapy (JFT) at their clinics in Orange County. The Supartz Therapy is a cost-effective, minimally invasive injectable treatment that assists in diminishing pain for patients with osteoarthritis, and will be administered by renowned orthopedists Dr. Stanley Katz and Dr. Neil Katz of Healthpointe. Supartz is an injection of made from highly purified sodium hyaluronate (also known as hyaluronic acid) a natural substance found in joint cartilage. Also known as viscosupplement, the Supartz Therapy is also used to improve mobility, functional capacity and overall quality of life.

Osteoarthritis is a degenerative joint disease that can progressively worsen as the cartilage between the bones deteriorates over time. As the bones begin to grind against each other, it may prevent people suffering from Osteoarthritis from performing even the simplest everyday activities. If pain medications and other analgesics treatment fail to improve the condition, then the doctors of Healthpointe may recommend the Supartz Therapy treatment.

The Supartz Therapy has been clinically proven to be effective and safe in helping relieve Osteoarthritis pain, and restoring the knees to their natural function. However, receiving these viscosupplement injections alone will not fully help in the treatment of knee osteoarthritis. Patients who receive the Supartz Injections will be recommended physical rehabilitation, which patients can conveniently access at any nearby Healthpointe location. Physical therapy sessions for this type of condition include pain reduction, massage, and exercise. Bracing would also be supplemented for the recovery.

To learn more about Supartz Therapy treatment and other rheumatology services, contact Healthpointe at (888) 824-5580 or visit their website at <http://www.Healthpointe.net>.
